

H3 GROB AIRCRAFT

WERDEN SIE TEIL DER GROB AIRCRAFT FAMILIE

An einem interessanten Arbeitsplatz.
Mit einem begeisternden Produkt.
In einem dynamischen Team.
Wir suchen Sie als:

Flight Simulation Engineer (m/f/x)

[Online-Bewerbung](#)

KEY RESPONSIBILITIES

- As an integral part of the Grob Training Systems team, you will work within the "Simulation" project division.
- You will support and further develop this area on a software basis, both in development and application.
- You will independently develop flight simulation systems, with a focus on modeling flight dynamics.
- You will contribute to the advancement of existing systems as well as to the development of new systems and simulators in the fields of dome projection and VR simulation.
- Within the team, you will actively contribute your expertise to additional internal projects.

QUALIFICATIONS

- Degree in aerospace engineering or a comparable qualification
- Specialization or strong interest in flight dynamics modeling and simulation
- Experience with classical control theory and real-time C++ programming
- Ideally, knowledge of numerical simulation using Python with NumPy/SciPy
- Experience in flight testing is an advantage
- Willingness to travel internationally on occasion
- Enjoy working in an open-minded team within an established, owner-managed company with a start-up spirit

We are a dynamic family-owned company with short decision-making processes and open doors. Additionally, we offer:

- 40-hour workweek, 30 days of vacation, company pension plan & a secure workplace
- "Work-life balance" – harmonizing career and family
- A relaxed work atmosphere with open and respectful leadership

We look forward to receiving your application via email or, ideally, through our career portal.
